

## ACKNOWLEDGEMENT

First of all, we would like to thank our parents to support and finance our studies, without them we were not here in these stages of our life. We want to say thank you and this is all for you.

And we would like to thank our adviser Prof. Regie C Ellana, for giving us a wide explanation and advised in doing the whole development of the project. He also has a long patience, giving us a motivation and immense knowledge while, sometimes he is too busy he giving us attention. His guidance helps us all the time in composing this thesis.

We would like to thank also to the Church that we stay when we are working for our Thesis Proposal, the Haven Bible Baptist Church. Thank you for caring us.

And we would want to say thank you very much for teaching us the proper process to making this documentation, for giving us an idea on how manage our time wisely and guide us to our project development proposal. Thank you Mr. Danny G. Umoso our Software Engineering Professor to teach us and we can't do it without your help.

We would like to thank in our almighty god to guide us wherever we are, to give us a wonderful life and to bless us every day.
